Student Email Addresses

I am pleased to inform you that we are now in a position to issue individual student email addresses to each of our students. These email addresses are being rolled out to all secondary students across the Diocese and will have many benefits for our students. Students will also use these email addresses to log in to the school’s internet and intranet services.

Our school will be utilising a service provider who will store the data outside Australia. This is similar to other service providers such as Hotmail, Yahoo and Gmail.

It is our legal requirement to inform you that the data will be stored overseas but the security measures in place are aimed to minimise any issues that may arise. I must also draw your attention to the Standard Collection Notice located on our webpage that refers to this requirement.

I / We understand that in order for my child to have a school issued personal email address, that some of this data may be stored offshore.
